

# SILVER LOT PLAN

(AS OF APRIL 20, 2012)

Dimensions: The dimensions of the exhibit spaces are measured in feet. Location and size of individual exhibits are believed to be accurate, but should be assumed to be approximate. Exhibitors are cautioned not to attempt critical measurements taken from the floor plan. If precise measurements are needed, contact GES Las Vegas at 1-702-515-5970 or via point-to-point distances to be measured.

The TV box in booth #10200 may be covered but not with heavy equipment.

Use trench plate on any equipment over 100,000 pounds to prevent them from sinking/ causing damage in asphalt parking surface.

The angle of incline for the swale varies from 39% to 42% and has a 24" fall measured from eight feet on either side of the center of the swale.
